

HOBART presents new glasswasher and dishwasher models

- INTERGASTRA & INTERNORGA 2018: Live presentation of the new undercounter dishwashers
- Intelligent network: Use the HOBART WASHSMART app to call up the status of your new machines at any time

Offenburg – New display with touch screen, unbeatable drying result, warewashing 4.0 with the WASHSMART app: The new features of the enhanced glasswashers and dishwashers by HOBART convince. True to the motto "WORK SMART, NOT HARD", the machines combine extremely low operating costs with impressive operator comfort to make daily cleaning as easy as possible. Short washing times, guaranteed cleaning results, as well as low water, energy, and chemical consumption complement the overall picture.

The TOP-DRY drying ensures a perfect drying result without the need for manual drying and polishing. Eliminating the escape of steam during washing, drying and opening the dishwasher, the machine feature VAPOSTOP² ensures an agreeable room climate. The front of the generation 2018 undercounter models is characterised by their new contemporary design. The VISIOTRONIC-TOUCH control provides a touch display as well as the time-proven single-button control.

HOBART WASHSMART app

The HOBART WASHSMART app allows you to call up comprehensive information on the status of the new glasswashers and dishwashers at the push of a button. Among other features, the app informs the end customer well in advance of due maintenance dates or chemical consumption and displays any system messages. Based on this data, the user can avoid standstill, re-order consumables directly via the app, and provide first information to the service technician in advance. Meanwhile, the user can resort to the troubleshooting advice in the app to remedy minor malfunctions themselves. If the problem still

cannot be solved, the customer contacts the HOBART customer service or a qualified service partner directly via the app.

The new C-Line – economical yet with premium wash results

With the enhanced rack-type dishwashers which were presented recently, HOBART offers its customers several meaningful improvements for more efficiency, economy, easier handling, and even better drying results. Additionally, there is the automatic self-cleaning programme as well as the innovative RACK-FLOW sensor system, which doubles the number of racks which can be cleaned consecutively in one-man operation. In addition to being highly reliable and delivering perfect wash results, the new dishwashers are intelligent. The smart machines detect empty sections or different types of wash ware and automatically adapt to the respective situation. This saves operating costs and valuable resources.

The perfect solution for all sectors of the industry

At the international trade fairs INTERGASTRA in Stuttgart and INTERNORGA in Hamburg, HOBART presents its wide range of kitchen equipment which make the daily work easier, more economical and environmentally friendly. The product portfolio covers all areas of kitchen work, from intelligent warewashing technology to reliable convection steamers.
